PARLIAMENTARY EARTH SUMMIT

5-7 June 1992, Palacio Tiradentes, Rio de Janeiro, Brazil

The people os East Timor is victim of a politic of genocide resulting from the invasion and occupation of its territory by Indonesia.

The closing of the borders, thousands of prisoners condemned without free judgment, violations, tortures, more than 200.000 people killed (1/3 of the total population), massacres like the one in Stª Cruz cemitery, Dili, are the consequence of the cruel attempt against the essencial human rights.

So, we ask people gathering the Parliamentary Earth Summit, in Rio de Janeiro, to declare their solidarity with the East Timor people and to claim for the end of the occupation, the respect of the human rights, and the right to self determination and independence.
